

## **Relay Action Wizard**

This tutorial provides you the information needed to setup a relay action via the notification wizards.

To get to the starting point of this tutorial:

- Log in as administrator
- Click the "Notifications" tab

## 1. Adding a notification

a) First click on the "notification wizard"

ation: System Location			AKCP securityProbe		ion tab	Admin Log

			Cancel	Finish

Please choose a name for your Relay Action. Descriptive Action names increase the simplicity of the system.

Select the port your relay is connected to and whether the Action should turn the relay on or off.

Click Finish to Save your Action
